Idukki, Idukki Dam, Record Water Level

**Record
water level in
Idukki dam**

A CORRESPONDENT

IDUKKI

The Idukki dam clocked a history on Tuesday when the water level touched 2,375.52 ft, which is 69.3% of the total reservoir capacity. The water level rose by over 4 ft on Tuesday.

The water level the same day last year was 2,316.98 ft.

The main tributary, the Periyar, continued to be in spate despite a lull in rainfall on Tuesday.
